1958 — FOREWORD

Many of you know that my gardens are a HOBBY. For this reason my prices are low, yet the quality surpasses many Iris sold elsewhere.

Shipping and call orders begin in June and continue late into Fall. Please state on the order sheet when you prefer the plants. In this area, July, August and September are the best months to plant or divde.

On orders of \$3.50 or more I pay the shipping charges; on smaller orders please add 35c for postage and handling. The year I will discontinue shipping to California, Washington and Oregon because of high postage rates.

EXTRAS: I include bonus plants with every order. If you will permit me to substitute please send an alternate list and from the same list I shall select your free plants.

West Virginia residents and pick-up orders are subject to 2% State Tax.

Blooming season begins May 5th and continues to May 31st or later. Visitors are most welcome.
